

ECE 345 / ME 380  
Introduction to Control Systems  
Problem Set #0

David Kirby

Due August 20, 2020 at 3:30pm

1. True or false? The Zoom link for synchronous sessions is the same as the one for student drop-in hours with Dr. Oishi.
2. Students are encouraged to use the General channel in Microsoft Teams for class-related questions and comments.
3. The preferred method of contact for Dr. Oishi outside of synchronous sessions is the Course Messages link on UNM Learn.
4. In preparation for synchronous sessions, students may need to:
  - (a) Respond to a poll in the Discussion questions channel in Microsoft Teams.
  - (b) Watch specific videos and complete specific quizzes, described in the Summary of Weekly Activities (Modules) located on the Course Home page in Learn.
5. According to the syllabus, the participation grade accounts for 20 % of the final grade.
6. The opt-out deadline for online access to the Nise textbook is September 4, 2020.
7. According to the syllabus, asking something like, “I tried this and got stuck.” is a good alternative to asking “How do you solve this problem?”
