Question 1

1 out of 1 points

Which of the following describe circumstances that require special treatment of the Routh table? (More than one answer may be correct.)

Selected Answers:

- There is a zero in the first column.
- There is a row of zeros.

Question 2

1 out of 1 points

True or false?

When there is a zero in the first column, it is replaced with a small value,  $\epsilon$ , that is non-zero.

Selected Answer: True

Question 3

1 out of 1 points

True or false?

When there is a row of zeros, each element is replaced with a small value,  $\epsilon$ , that is non-zero.

Selected Answer: False
