Technical Cybersecurity

Github

Github Information

GITHUB IS A TROVE OF INFO!

‣ Projects

‣ Technologies

‣ Activities

‣ Resumes

‣ Past Associates too!

Let's take a look!

WHO IS CCLAMB?

- ‣ He sure has lots of projects!
- ‣ Seems he works with energy equipment?
- ‣ He likes python and uses flask?
- ‣ He's somehow associated with the IoT class at UNM?
- ‣ OMG what is this resume stuff?
- ‣ And iOS jailbreaks?

Go ahead, take a look at my GitHub account. I don't think I have anything embarrassing in there, but then again, I do have 144 repos, so who knows!

What about Linkedin?
